

Providence Lifestyle

Mandurah Resort

FEEL FREE TO DO MORE OF
THE THINGS YOU LOVE

WELCOME TO PROVIDENCE LIFESTYLE MANDURAH RESORT

Located just 5 minutes from the centre of Mandurah and close to all major conveniences and services, Providence Lifestyle Mandurah Resort offers a unique opportunity to enjoy architecturally designed 1, 2 and 3 bedroom homes and resort living every day.

So, what makes Providence Lifestyle Mandurah Resort different? Well, it's one of only a small handful of its kind in WA, where every home is predesigned by our architect, and constructed in groups of around 30 homes - making this 77 home community completely masterplanned.

Providence Lifestyle Mandurah Resort has **no exit fees**, so that Resort Homeowners will enjoy 100% of future capital gains. This is much more appealing to a younger group of early retirees and empty nesters who are not ready for retirement villages catering for an older cohort with high exit fees.

The Resort will be one of the first solar powered microgrid lifestyle

communities, with battery storage providing an embedded network delivering free energy up to 8 kW every day, and avoids Western Power's daily supply charge altogether, providing residents with savings of around \$20 to \$40 each week in power and supply charges compared to what Homeowners may have experienced in their previous suburban homes. Significantly reducing each Resort Homeowner's weekly cost of living.

Future proofed, with an investment in infrastructure required for state-of-the-art, business grade Wi-Fi. This will allow for exceptionally fast data uploads and downloads... the world will literally be at your fingertips.

The driving force behind Providence Lifestyle Mandurah Resort is John Wood, one of Australia's most experienced lifestyle community developers and operators. John boasts an impressive history, having founded NLV (National Lifestyle Villages) in 1999 and

The Clubhouse and Bowling Green at Providence Lifestyle Mandurah Resort

subsequently establishing 14 successful villages across Australia. In 2020, John established Providence Lifestyle Resorts with four initial locations. The Mandurah development is designed to be a high quality 'best in class' community.

Providence Lifestyle Mandurah Resort has reshaped the traditional approach to downsizing and retirement living. Providing people the financial freedom to enjoy the best times of their lives, through safe and secure resort living that actively supports wellness through an active, connected and engaged lifestyle.

Each stage of homes is designed and developed before being sold to dramatically improved the presentation of streetscapes throughout the Resort. Having architecturally designed each home relative to the street and its neighbour means that privacy, solar orientation and cross flow ventilation are all dealt with on the drawing board.

This creates a superior product not previously seen in WA.

A WONDERFUL COMMUNITY

- ✓ No Stamp Duty
- ✓ No Entry or Exit Fees
- ✓ Secure Gated Community
- ✓ Low Maintenance Lots
- ✓ Prices Include Everything
- ✓ High Quality Home Fit Out
- ✓ Pets Are Welcome
- ✓ Solar Microgrid and battery storage
- ✓ Completely Masterplanned
- ✓ Electric Share Cars and Bikes
- ✓ Great Location
- ✓ Experienced Management.

NO STAMP DUTY

Many people hesitate when downsizing due to having to fork out thousands of dollars in stamp duty. At Providence Lifestyle Mandurah Resort, homes are classed as a 'chattel' which means no stamp duty and huge savings.

NO ENTRY OR EXIT FEES

That's right, unlike typical retirement villages, there are no entry or exit fees!

A SECURE COMMUNITY WITHIN A COMMUNITY

Automated security gates open at dawn and close at dusk, and all Resort Homeowners have control of who comes in and out from the comfort of their home, enabling greater peace of mind in a safer community environment.

TURNKEY HOME PACKAGES

Homes come complete, so that owners don't have to do a thing! From the interior painting, air-conditioning, window treatments, light fixtures, dishwasher, to the exterior landscaping, reticulation, NewTech Wood decking and washing lines, it's all done for you to shift in with ease.

HIGH SPEC HOME FIT OUT

Homes at Providence Lifestyle Mandurah Resort have been given that extra 'pizzazz' with a fabulous fit out. Interior decorators have ensured the colour palettes are timeless and beautifully matched. From the wardrobe doors, downlights, and kitchen appliances to the beautiful stone tops and waterfall-end breakfast bars, the Resort homes are set to a new standard. The streetscape home elevations also set a new benchmark with feature stone cladding, balustrades, exposed aggregate driveways and low maintenance reconstituted decking.

LOW MAINTENANCE LOTS

There is a selection of Lot sizes of between 163sqm and 300sqm, depending on home design, lot location and garden area. All lots are designed with an easy-care garden and outdoor alfresco area providing privacy to neighbours with no common walls (except the small number of duplex homes).

EVERYTHING IS INCLUDED

Low weekly fees cover nearly everything related to living in the Resort. For instance, there are no additional fees to use the Resort club, gym, heated pool and spa. How many of the facilities owners wish to use is entirely their choice, enabling them to make their life as relaxed or active as they wish.

PET FRIENDLY

We will happily welcome furry friends under the community guidelines as we know how important they are to well being and how much a part of the family they are.

A LIVEABLE NEIGHBOURHOOD PHILOSOPHY

Our masterplanned Resort has been specifically designed for a healthy and active lifestyle – encouraging connection and friendship, rather than isolation and loneliness.

RESORT FACILITIES

Take a look at the amazing range of facilities below:

- Café / Bar
- Commercial kitchen – for use by Resort Homeowners and/ or caterers
- Beautiful reception and lobby area
- Library (books donated by Resort Homeowners)

- Change rooms
- Modern gymnasium
- Massage and treatment room (for visiting beauticians/massage therapists)
- Clubhouse fireplace
- Secure audio/visual intercom entry
- Hobby Workshop; including Woodwork and Microbrewery.

* some descriptions of facilities are subject to change

LIKE-MINDED SOULS...

We believe people who will call Providence Lifestyle Mandurah Resort home consider themselves too young, fit or healthy for a typical retirement village, and, on average, will be 15 to 20 years younger.

Many will be working full time or part time getting ready for retirement, whilst others may be fully retired and not working at all. Many will love to travel for extended periods and enjoy the ease and freedom of being able to 'lock and leave'. While many will love to just 'stay and play' because it feels like being on holiday every day!

However, no one will have children permanently living with them.

Many will be couples who have raised a family in the suburbs, who, with their children off their hands, are now ready for 'me time'. They are people who want to downsize, free up cash, and are looking for a modern, new home without the maintenance of a large property.

The community will likely be single, divorced, or widowed folk who cherish their independence but are looking for more opportunity for connection and friendship which is harder to accomplish in a home in suburbia.

Many Resort Homeowners will be people who want to maintain a very private life just staying connected to their family and friendship base. Others will be very social and active personalities who love arranging or participating in larger gatherings and social settings. They are up at the crack of dawn and down at the gym or they are sleeping late because, well, the night before was too much fun!

Basically, anyone and everyone can find like-minded souls and enjoy what Providence Lifestyle Mandurah Resort has to offer.

ARCHITECTURALLY DESIGNED RESORT

Our homes are designed by award-winning architect, Richard Hammond, who specialises in community living projects and his design philosophies include connected indoor/outdoor spaces, cross flow ventilation and good solar orientation to all the homes. Designed with principle of passive solar energy in mind, our homes are on individual lots of 163 to 300sqm with no common walls (except the small number of duplex homes).

Bringing together the finest materials, all homes are constructed with reinforced concrete pads, strong steel or timber frames, fibre cement walls, and Colorbond roofing. As you would expect from these high quality offerings, they also have excellent sound proofing, insulation and comply with the new bushfire ratings.

From the interior painting, air-conditioning, window treatments, and light fixtures to the exterior landscaping and reticulation, it's all done for you to move in with ease.

So much thought and effort has gone into the vision, design and implementation of the Resort – culminating in a beautiful and peaceful place to call home.

Our professional Design Team has created street elevations and rooflines to complement a holiday lifestyle, while the accompanying combination of house colours and variation of home facades gives every location an interesting streetscape.

An important element of the Resort is the landscape design, street trees and numerous water features which will give the Resort a relaxed and established feel, as well as offering plenty of shade in the summer months.

VISION & VALUES

The driving force behind Providence Lifestyle is John Wood, one of Australia's most experienced lifestyle community developers and operators. John boasts an impressive history, having founded National Lifestyle Villages (NLV) in 1999 and subsequently establishing 14 successful communities across Australia. In 2020, John established Providence Lifestyle alongside fellow directors John Green, James Turnbull and Brad Denison to push the bar further and continue to innovate for a more discerning and younger market.

When I first started selling and supplying transportable homes into parks 35 years ago, I didn't realise the lifestyle land lease industry had begun the same way all around the world.

Initially, these communities were about affordable, safe and secure community living options for retirees and the actual homes were small and lightweight. Now, the global industry, including WA, has matured to meet the more discerning needs of the growing population of baby boomers and the homes are extremely high quality. More and more people are looking for a contemporary, no compromise alternative to the typical retirement industry offerings.

As one of the first business people in WA to put time, energy and capital into offering something more and different in this space, there was limited government guidance or legislation available. I had to improvise and introduce new concepts and policies that legislation would eventually adopt. To help the concept and venture succeed I did a couple of things that really helped guide me along the way.

Firstly, I researched other communities, villages, and resorts on Australia's east coast and in America to uncover what worked and what didn't. Secondly, I did some soul searching, thinking about what sort of place I would want my mum to live in. I considered the facilities, environment and management principles I'd want or expect in a community my mum might call home. This has proven to be one of the most useful decision-making approaches for me. I've used it when creating legal agreements, developing management policies,

when thinking about design and facilities, and when attracting the right team members. Once we were developing multiple villages, the vision in my head, and the values I wanted my team to live and work by, became harder to communicate. One of my coaches encouraged me to write them down clearly and concisely, so they could guide the team's daily decision-making.

When we began including our vision and values in our marketing literature, I truly realised their importance. They've struck a chord with so many people contemplating moving into one of our Resorts.

This is because the vision and values an organisation adopts is a clear indicator of how they want to behave in business, in the community and in the wider environment.

The Providence team has spent time fine-tuning our vision and values statement, which I'm pleased to share with you. This guides all decisions and interactions we have. It continues to evolve, but we love that it helps hold us accountable, and our intention is to honour these words.

The values we live by in business are just as important as the products and service we offer!

Providence Lifestyle
Founder and Director

OUR VISION

We create safe, social and sustainable residential resorts with fabulous facilities and experienced management facilitating physical and mental wellbeing.

Heart

We care

We act with integrity, trust and respect, looking for fair outcomes for all stakeholders, and acknowledge mistakes so that we can learn and grow.

Responsible

We reflect, then act

We trust ourselves and our colleagues to respond appropriately, reflecting on our vision and values when making decisions.

Accountable

We step up

We are responsible for the creation of our experiences; we hold people accountable without assigning blame and strive to make choices from love instead of fear.

Balanced

We view life holistically

We value, protect and care for the balance we all need between family, spirit, work, exercise and fun.

Inspired

We are innovative

We value ideas, innovation and creativity, are passionate about what we do and we don't mind questioning the status quo and be courageous.

Social

It's all about people

Enriching communities are developed by people who care about people. Providence Lifestyle supports a culture of innovation and growth in an inclusive, safe, friendly, healthy and engaging environment where relationships are nurtured and people have fun.

Economic

The money has to make sense

Providence Lifestyle provides value for money lifestyle choices for Resort Homeowners. By successfully delivering value, it provides sustainable financial reward for all stakeholders.

Environmental

We are custodians

Providence Lifestyle cares for the broader environment. Everything we do considers the environment we share. We are at the forefront of introducing ways to reduce our ecological footprint and create a better world for our children to inherit.

Governance

We make it real with good care

Providence Lifestyle applies strategies to ensure that good governance is applied in all decision making to ensure our commitment to social, environmental and financial outcomes are delivered.
